Portuguese, English, and Polish

Portfolio

https://datalinkgg.github.io/thomascionek/

Summary

Proficient in various operating systems. Solid foundation in Linux, having used various distributions for nearly 10 years, with a keen interest in experimenting with commands, customization, and troubleshooting.

Gained international exposure during a 4-year stint in Poland, where he studied Computer Science and interacted with exchange students from around the world.

Seeking for junior-level opportunities preferably as Full Stack Developer, but also a Front End and Back End.

Employment

2023 – 2024 — Alude (YC W20)   São Paulo, Brazil
Junior Full Stack Developer

Worked with Python, JavaScript, and PostgreSQL. Interactively customized React components from Ant Design based on the UX Design models from Figma, working in Scrum methodology, with Code Reviews, Product and Team Retrospective Meetings. Engagingly implemented back-end library functionalities and actively interacted with the database.

Education

2022 – 2024 — Universidade Positivo   Curitiba, Brazil
Systems Analysis and Development

2017 – 2022 — Politechnika Wrocławska   Wrocław, Poland
Computer Science

2016 – 2017 — Universidade Federal do Paraná   Curitiba, Brazil
Bachelor's Degree, Electrical and Electronic Engineering
